STATE TOURNAMENTS

There will be (7) spot tournaments and (6) 3D circuit tournaments that will make up the SCAA Shooter of the Year competition. Times will be posted on the website (entry forms) and/or facebook page for these tournaments. All competitors must be a member of the SCAA/NFAA or participate in the guest class. In the event that a State tournament cannot be held on the assigned date, an alternate date will be set by the Board of Directors. Those participating are advised to register before the event on the SCAA website.

The Rules and Regulations governing tournaments 1 through 6 are as described in the current NFAA Constitution and Bylaws Handbook. ARTICLE II, ARTICLE III, ARTICLE IV, ARTICLE VI An abbreviated description of the below events can be found on the SCAA website.

1. State Vegas Round Championship
2. State Indoor Round Championship
3. State 900 Target Round Championship
4. State Field Target Round Championship
5. State Hunter Target Round Championship
6. State International Round Championship
7. State 3D Championship

The State 3-D tournament will follow the SCAA rules and regulations for a 3D tournament with the following changes:

SCAA State 3-D Championship

1. The State 3-D Championship will be a one-day shotgun start tournament at 10:00 AM. A banquet and awards ceremony will follow the tournament.
2. State 3-D tournaments are to consist of twenty five (25) targets and 14s are for score at the club's discretion.
3. All SCAA classes will be recognized except for Bowhunter B.
4. A competitor must be a current NFAA/SCAA member in advance to compete for any State Championship tournament in order to participate for a Championship, 3D Circuit or the SOY.
5. Competitors will be assigned a peer group based on class and tournament standings.

SCAA Shooter of the Year (SOY) Championship Rules and Information

Competition will be governed as follows:

1. To compete in the SCAA Shooter of the Year competition, archers must register for the competition. Registration can be found on the SCAA website or at an SCAA club. Registration must be completed prior to competing for the scores to count for SOY.
2. A competitor must compete in at least (4) four of the State Spot Tournaments, shoot at least two SC 3D Circuit shoots and finally must shoot the SC 3D Championship tournament in order to be eligible to win the SCAA Shooter of the Year Award in his or her class for that year.
3. All state target scores will be prorated to a max score of 300. This balances all tournaments to be weighed equally. State Champion 3-D scores will be **not** be prorated to a total score of 300 points, but will be added to the sum of the prorated State Target Scores.
4. The four highest prorated target scores, 2 highest 3D Circuit scores and the State 3D score will count towards the SCAA Shooter of the Year totals.
5. SCAA 3D classes will be used for the Shooter of the Year competition. Bowhunter B is not a recognized class for Shooter of the Year.
6. A competitor must be a current NFAA/SCAA member to compete for any State Championship tournament and the SOY competition.
7. A competitor must compete in comparable classes, based on equipment, between NFAA and SCAA 3D classes. It is the competitor's responsibility to verify with state officials if there is a question about like classes.
8. Bowhunter Novice and Hunter Unlimited are target classes recognized by the SCAA, however competitors in these classes will not receive an NFAA award. If a competitor in these classes wishes to receive an NFAA award, they must shoot in a comparable NFAA class based on their equipment. Archers whose bows are equipped with fixed pins and a stabilizer of 12" inches or less can shoot Bowhunter Freestyle. Archers whose bows are equipped with moveable sights and a stabilizer longer than 12" can shoot in the Freestyle class.
9. A competitor may change SOY classes before the third state tournament. Shooter of the Year points will not be transferred to the new class.

10. If a shooter changes age classification, during a tournament season, they need to start off in that age groups class in order for all of the results to count towards 3D state championship and SOY. For example, cub is 11 yrs old and turns 12 before last Championship tournament, they should start the season in youth 12-14.
11. At State, Sectional or National Championship tournaments a separate guest class will be offered. If the guest class and its competitors are on the same course they must give way to the competitors participating for the Championship.

Move Up Rule for Bow Novice- The past State 3D, 3D Circuit, Regional, OR SOY champions in the Bowhunter Novice class must move up to a higher class (Exception is the Women's Bowhunter Novice). Previous Male Bowhunter Novice Winners will be ineligible to compete in any of these competitions in the Bowhunter Novice class.

2021 SCAA 3D CIRCUIT CHAMPIONSHIP

- A. SCAA rules and classes apply with the exception, that the Bowhunter B class is excluded from this competition.
 - a. *SC 3D Circuit members must join on or before the March 13th ... this is the date of TAB's 2nd SC Circuit tournament.*
- B. To participate in the SC Circuit Championship, a 3D Circuit Championship entry form must be submitted to the initial host club or the SCAA Secretary prior to the start of the shoot (a participant cannot sign up after the shoot and have it count towards the points championship total). Participant will receive a SC Circuit membership card and must present the card at each SC 3D Circuit shoot during registration.
 - a. *A 3D Circuit member is not automatically an SCAA membership. In order to be qualified as "The SCAA State 3D Champion" you must be an SCAA/NFAA Member. In other words, the SC 3D Circuit Champion and the SC 3D State Champion can be two different people*
- C. SCAA has a speed rule of a maximum of 300 fps with a 3% variance. All 3D Circuit Championship shooters must be prepared to shoot through a chronograph. A disqualification of tournament score will result if a competitor shoots over the maximum speed after beginning the tournament. (excludes Known 40 Outlaw.)
- D. It is the SC Circuit competitor's job to ensure he/she shoots in a group with at least 3 adults. These adults do not need to be 3D circuit competitors. SCAA defines an adult as a competitor that is 18 years old or older. Clubs may make exceptions to this rule on a case-by-case basis due to limited number of shooters.
- E. Club Circuit Tournaments will be casual registration and an exclusive weekend tournament for the hosting club. However, the final 3D Championship tournament will be a shotgun start at 10AM.

- F. Tournaments are open to any registered archer. Circuit and non-circuit archers will compete in the same class as registered.

(OVER)

- G. A SC Circuit competitor may only participate in one class for the Circuit Championship. The class shall be identified on the SC Circuit registration/ membership card. The competitor may shoot another class during any club tournament but the score in the other class will not count towards the Circuit Championship points total.
- H. Scoring for Circuit Championship as follows: Each club will host two (2) SC Circuit shoots. **Each participant must have at least one score from each club in order to qualify Plus he/she must also shoot the SC 3D Championship Shoot on July 24th.** The SC Circuit Points champion will be the one with the highest combined total score (the highest score from each club and the added points from the SC State3D Championship). A score board will be kept on the SCAA Website. Competitors shall immediately notify the SCAA 3D Circuit representative for corrections. If corrections are not conveyed to the rep within 7 days then the scores are as noted on the website. Ties at the end of the year will be resolved by a single arrow shoot-off between the competitors until a champion is crowned. The Representative for 2021 is Emmett Tyree eatyree3@gmail.com or text at (864)643-7490
- I. **Move Up Rule for Bow Novice-** The past State 3D, 3D Circuit, Regional, OR SOY champions in the Bowhunter Novice class must move up to a higher class. He will be ineligible to compete in any of these competitions in the Bowhunter Novice class. (This rule does not apply to the Women's Bowhunter Novice)

GENERAL TOURNAMENT RULES

CONDUCT

- A. Unsportsmanlike conduct at an event will not be tolerated. Any violation of conduct, rules or of the SCAA Constitution & Bylaws will be handled with the Board of Directors. Actions taken by the Board of Directors will be final.
- B. Verbal abuse or slander directed toward a Competitor, Tournament Official or guest while on club properties will result in immediate disqualification of the shooter from the Tournament. A report filed with the Board of Directors for further disciplinary action can be submitted.
- C. ALCOHOLIC BEVERAGES AND DRUGS ARE PROHIBITED.
- D. No shooter will be allowed to compete while under the influence of alcohol or any other controlled substance. The penalty is immediate disqualification and sanction of membership. Also local laws apply as to conduct with possible arrest.
- E. **Please help keep our ranges clean. Littering the grounds of any tournament will not be permitted.** Cigarette butts are the #1 littering item and a potential fire hazard.

- F. Competitors are responsible for their guests. Your guests are required to behave in such a manner as to allow competitors to compete in a professional environment. Any Competitor can ask for the removal of a guest from the range for misconduct or creating a disturbance.
- G. Protests can be made in accordance with ARTICLE VIII. PAR 8, PROTESTS of the SCAA Constitution.

TOURNAMENT REGISTRATION SCORING and Other Rules

- A. Each Competitor is responsible for completing any registration form(s) and that the information is correct in your classification. After the tournament begins, it will not be possible to make changes or additions. Compliance to shooting and equipment rules are required to compete.
- B. Shooting groups must have at least three shooters and no more than five shooters. Exceptions are allowed if permissible by the hosting club.
- C. Each archer will shoot their arrows with one foot touching the appropriate stake for their division and class in which they are registered. Handicap vehicles or equipment can be positioned in a way near the stake for the shooter to execute a safe shot.
- D. Scoring for 3D targets will be 14, 12, 10, 8, 5 and 0 in the respective scoring rings. Individual clubs may use or not use the 14 ring at their discretion for club shoots. When ASA 12's are in play and the target has an upper 12, the upper 12 may be "called". This will make the upper 12 for score as a 12 and eliminate the lower 12 from scoring. The lower 12 scoring area becomes part of the 10 ring. 10, 14 rings will be included as scoring opportunities for State Championship 3D shoots.

E. Tournament scorecards:

- 1. Each shooter will receive two (2) score cards for each round. All information on each scorecard must be filled out and correct. Each group will designate two (2) members of their group to call scores and two (2) members to record the scores. (If the group has only three (3) shooters, the minimum per group, only one (1) will call arrows). Archers will draw for the shooting order in their respective groups and rotate the shooting order. (For club shoots a shooter may be given one (1) score card.)
- 2. All arrows must remain in the target and should not be touched until all arrows are scored. The arrow shaft must touch any portion of the scoring ring, regardless of deformity of the scoring rings or angle of the arrow in

the target to be scored the higher value. The status of any questionable arrows must be determined before removing any arrows from the target. If both score callers agree, the score called is final. If there is disagreement in the designated callers, a third caller from the group other than the archer whose arrow is in question will make the final call. If a questionable arrow exists in groups of three, the designated caller will make his call. If the archer whose arrow is in question does not agree or it is the caller's arrow, he may have one of the scores make the final call. In all cases the third call is final.

3. Score callers will judge and score each arrow and call out the results to the scorekeepers. This will be recorded on the respective shooters scorecard. Running scores can be checked during the progression of the round to eliminate errors.
4. Both completed scorecards must be totaled and signed as correct by the score keepers and the shooter and turned in at the assigned area. Failure to sign a scorecard will result in a NO SCORE for that round. Each shooting group must turn in their scorecards together (except when a shooter is permitted to makeup targets due to equipment failure or other approved leave of emergency). Any individual or group that does not turn in their cards before leaving the range (taking cards with them) will receive a score of "X" for that day's score. "X" will be used instead of the number (0) on all cards, symbolizing "NO SCORE".
- F. Arrows passing through the face, but still in the target, will be pushed back and scored.
- G. Any arrows deflected by a foreign object or miss fired will be scored where it lies.
- H. Any arrow embedded in the nock of another arrow (generally known as a "Robin Hood") will be scored the same as the arrow it struck and skewered, even if it falls to the ground and not in said target. If the arrow contacts another arrow and continues past the target it is scored a miss.
- I. Tie scores for 1st, 2nd and 3rd will be a shoot off if 2 or more competitors for the place are present. If a shoot off can't be completed, the tie breaker will be the most 14's and 12's (combined), 10's, 8's and so forth for 3D. Most X's, highest scoring ring, next highest and so forth for target events.

- J. A witnessed bounce-out will be re-shot. If an arrow is shot at a target and is suspected by the archer or the group as a pass-through, proceed by letting the next archer in order shoot. Archers not standing at the stake should always observe where the arrow strikes the target for this reason. When all shooters of a group have completed shooting, one (1) "scorer" may proceed to the target to see if there was a pass-through or if the arrow is embedded in the target. If it is embedded in the target, he will request the group to come to the target, and observe pushing back the arrow to score. If the arrow has passed-through, then the "scorer" has to return to the group so the archer can shoot another arrow at the target to score. As soon as possible, tell Range officials which target you had a pass-through on, so it can be replaced or repaired.
- K. Arrows cannot be touched before scoring. If any shooter pulls arrows from a target before all arrows are officially recorded to the cards, that shooter automatically receives an "X" for said target.
- L. No shooter will glass the target while standing at the shooting stake **after** shooting their arrow. Shooters may glass the target prior to shooting, but still be reminded of the time factor restrictions. After assuming their position at the stake, 2 minutes are allowed to shoot one (1) arrow. The shooter will receive a verbal warning from the group or range official for the first offense. Second warning will be a five point (5) penalty from the target score, but no less than an "X". Each subsequent offense will receive the same (5) pt. penalty but no less than an "X".
- M. An arrow inadvertently dropped while transferring the arrow from the quiver to the bow in preparation of a shot or an arrow that falls or drops off the arrow rest to the ground may be recovered if within reach of the archer, (no assistance with any type of equipment) from the appropriate shooting stake. When a mechanical release is attached or fingers set-up is applied to the string and the arrow is propelled towards the target whether it is in reach or not it is a shot arrow.

EQUIPMENT

- N. EQUIPMENT FAILURE: An archer declaring equipment failure, verified by the group may leave the range to report the equipment failure to a tournament official. Upon reporting to an official, the archer will have forty-five minutes (45) to make necessary repairs or replacement and re-sight the repaired equipment. The archer will then rejoin the original

group and continue shooting the remaining targets. All targets missed will be shot under make up rules with a scorekeeper and witness. Any equipment failure that results in an arrow being released toward a target will be scored as it lies; a missed target may not be re-shot. Each archer is limited to one (1) equipment failure per tournament. If a second equipment failure occurs, the archer will remain with his or her group to act as a scorer or scorekeeper.

- O. Binoculars and spotting scopes will be allowed. They may be checked at random tournament officials or individuals in your shooting group. You may ask to check theirs as well. If any marks are on the binoculars or scopes and can be used to calculate yardage they must be removed from play and deemed inappropriate. Users can be subject to disqualification.
- P. Range finders are only allowed if shooting a known distance class. Distances ranged from a range finder cannot be discussed during the competition, particularly to anyone that will or are competing in an unknown class. This applies to Competitors and guests. Range Officials not competing in or who has completed the Tournament may range a target for maximum yardage disputes only.
- Q. An archer may not hold any equipment in line with the target for use as a range finder, and after an archer has set his/her sight, may not let down and re-set the sight.
- R. The SCAA has a 300 ft. per second rule with a 3% variance for chronographs (309 ft) as measured by the official on-site chronographs. Each competitor understands and agrees that they may be required to shoot the designated tournament on-site chronographs. If the speed of that arrow is over 309 fps the competitor can make adjustments to correct the speed and reshoot an arrow to be documented on the scorecard. The only time adjustments are allowed is before the start of the tournament. At any time during or when turning in scorecards a competitor may be asked to shoot an arrow through the chronograph. If the arrow exceeds 300 fps, **3 arrows** will be shot and averaged for the official speed. A speed which exceeds 309 ft. per sec. will result in immediate disqualification of that round score with no exceptions.
- S. The SCAA/ NFAA maximum draw-weight of a bow shall not exceed eighty pounds (80)lbs.

Tournament Distances:

There will be five shooting stakes set with these color and maximum yards:

| | | | | |
|--------------------|-------------------|--------------------|-------------------|------------------|
| 50 yds (orange) | 40 yds (green) | 30 yds (yellow) | 25 yds (white) | 20 yds (blue) |
|--------------------|-------------------|--------------------|-------------------|------------------|

- A. The maximum yardages are listed on the next page, SCAA 3D class & equipment chart. Each club will do their best to adhere to the maximum yardages for each class. At times targets may be inadvertently set out too far. If a target is over maximum, the first archer must notify the hosting club prior to shooting, otherwise it must remain for all archers for the duration of the tournament.
- B. Bowhunter stakes are to be placed in the shooting lane to give a clear line of sight to the target scoring areas.
