

2017 SCAA REGIONAL 3D CHAMPIONSHIP

Rules for the regional tournament are set by the clubs in the region to best meet the needs of the each region.

SCAA rules, yardages, and classes apply. Bowhunter B is excluded from regional competition. If you win the regional competition in Bowhunter Novice, you must move to a higher class.

- A. Every regional tournament will be casual registration. These tournaments are labeled on the tournament schedule. All 3D tournaments are for regional unless tournament is listed as as “non-regional” on the tournament schedule.
- B. By the current arrangement, upper and lower state clubs are as follows:
Upstate: Keowee, TAB, and Midlands
Lower State: Sandune, Wildlife Action, Lake Marion, Broken Arrow and Swamp Fox
- C. To participate in the Regional Championship, a Regional 3D Championship registration form and fee must be submitted to a regional club or SCAA secretary prior to the start of the shoot (a participant can't sign up after a shoot and it count toward the total). A regional membership card will be given to participant and is required at each regional tournament registration. The lower regional requires one score from each club (5 clubs=5 scores). The upper regional requires two scores from each club (3 clubs=6 scores).
- D. A regional competitor may only participate in one class for the regional tournament. This class must be noted on the regional registration form. A competitor may choose to shoot a tournament in a different class, but this score will not count for the regional tournament.
- E. A competitor may join the regional tournament at any time as long as there are enough shoots to complete the tournament requirements (one tournament per regional club). The end date for the regional can be found on the SCAA Tournament Schedule.
- F. Each Club will maintain the same number of targets, 25 or 30, throughout the year. NOTE; if the 3D Championship applies to the Regional Championship and the host club normally sets 30 targets, then the 25 target shoot will be prorated to a 30 target format for the Upper or Lower Regional Championship.
- G. The competitor's highest score(s) from each regional club tournament(s) will be combined to determine their Regional Championship score. A regional scoreboard and standings can be followed on the SCAA website.
- H. A tie for championship is broken based on the number of SCAA tournaments a competitor participated in during the year. These shoots do not have to be regional specific or strictly 3D. For example, an Upper Regional participant could shoot a State Spot Tournament at a Lower Regional Club and this tournament would count in the tiebreaker.
- I. SCAA has a speed rule of a maximum of 300 fps with a 3% variance. All regional shooters must be prepared to shoot through a chronograph. A disqualification of tournament score will result if a competitor shoots over the maximum speed after beginning the tournament. (excludes Known 40 Outlaw)
- J. Regional competitors must shoot in a group with 3 adults. These adults do not need to be regional shooters. SCAA defines adult as a competitor that is 18 years old or older.
- K. The number of places/trophies awarded will be based upon the SCAA Trophy-Award chart.
- L. A competitor can win the 3D Championship, Regional OR SOY only once in the Bowhunter Novice. He/she will be ineligible to compete in any of these competitions in the Bowhunter Novice class.

Regional Championship Fees:

NFAA/SCAA Members ADULT \$10 17 and under \$5

Non-NFAA/SCAA Members ADULTS \$15 17 and under \$7

Please show your NFAA/SCAA membership card for the discounted price.
