FYI - the version you sent says "Broken Arrow Archery Club". Should people look at "Template" "April 2016" "May 2016" or Sheet 1,2, or 3? I'm seeing a blank page when I pull it up - with Broken Arrow Archery Club at the top - and those are my tab options at the bottom (April and May have scores). I'm also on a Mac, looking at this with numbers because that's the spreadsheet program I have. It's been a while since I've messed with a PC - is there an "export" in the file drop down that will enable you to change it to a PDF? I can't open it on my phone either (android platform).

It's posted if you want to see it.

Thanks

Dayton
